ASPEN2100AF™

LOW DERMATITIS POTENTIAL

100%
NITRILE
Non-Latex

Introducing the PUREST Nitrile Exam Glove!

Created from the purest nitrile compound available, Aspen2100AF is accelerant free, which means there is Low Dermatitis Potential. Now you can virtually eliminate the risk of Type I latex and Type IV chemical allergic reactions. With advanced tactile sensitivity & silky smooth comfort Aspen2100AF is one of the strongest gloves ever created.

FEATURES & BENEFITS

- Accelerator-Free formulation - **LOW DERMATITIS POTENTIAL** & will not cause painful skin irritation
- Pure Nitrile Powder-Free material - reduces potential for latex allergies
- Tested Safe for use with chemotherapy drugs - additional strength for all-purpose use
- Textured Fingertips - enhanced tactile sensitivity
- Universal Acceptance - An ideal choice for standardization
